

VEEDA'S PATIENT BASED CLINICAL TRIALS EXPERIENCE

- Veeda Clinical Research has completed 28 patient based clinical studies so far, out of these 21 studies are PK endpoint studies and 7 clinical endpoint studies (5 phase II and 2 phase III). We have enrolled about 1300 patients in various therapeutic areas and worked with more than 125 sites across India in different therapeutic areas such as Oncology, Psychiatry, HIV, Rheumatology, Dermatology and bone diseases.

- Veeda's Experience - Therapeutic area wise

Patients recruited in different indications

Indication	Number of Patients
Oncology	
Chronic myeloid leukemia (CML)	200
Metastatic Breast Cancer	136
Non-small cell lung cancer (NSCLC)	119
Renal Cell Carcinoma (RCC)	88
Colorectal Cancer	57
Ovarian Cancer	188
Small cell lung cancer (SCLC)	32
Squamous cell cancer of Head & Neck (SCCHN)	20
Microsatellite Instability high (MSI-H) or Mismatch repair Deficient (DMMR) Tumours (i.e. Colorectal, Gastric endometrial, cholangiocarcinoma, Gall Bladder Cancer etc.)	05
Classical Hodgkin Lymphoma	13
Psychiatry	
Schizophrenia	341
Rheumatology	
Rheumatoid Arthritis	36
Bone Disease	
Avascular Necrosis	14
Articular Cartilage Defects of the Articulating joints	14
Cardiology	
Acute ST - Segment Elevation Myocardial Infarction	11
Other	
HIV-1	48
Psoriasis	9

Regulatory Inspections History:

We have successfully completed 17 USFDA inspections at Oncology, Rheumatology and Dermatology sites without any 483 observations.

Investigators' Database

We have database of more than 600 Investigators sites for which preliminary feasibility evaluation has been done in various therapeutic areas and having capabilities of enrolling patients with following indications with mentioned recruitment rate.

Indication	Investigators
Oncology	135
Psychiatry	90
Orthopedic and Rheumatology	72
Endocrinology	38
Dermatology	87
Cardiology	20
Gastroenterology	45
Respiratory	38
Ophthalmology	80
Urology	27
ENT	35
Hematology	16
MD Physicians	79

Why Partner with Veeda?

- Independent CRO
- 7 yrs of patient based Clinical trial experience
- Experienced team to handle the criticalities and challenges of the studies
- Scalable team approach
- Proven track record of timely recruitment completion even for rare indications like RCC and SCLC
- Data base of prescreened experienced, GCP compliant Investigators with good tested recruiting potential
- Worked with more than 125 Investigators sites in different therapeutic areas
- Excellent regulatory liaison for obtaining DCGI approval/BE- NOC
